

Crazy World

music and lyrics by Tom Schena

Intro

Only got one life (echo)
Don't you leave anything on the table.
Won't you try to be everything you're able.

Verse 1

You've only got one life
One life to live
You've only got one heart
One heart to give
And you've only got one melody
Singing in your soul
And you've only got one future to see what these eyes
Have always known

[Bridge]

You're stuck on a ledge
And there's no safety net to hold you
You want to get to the other side
But you're too damn afraid to fly

Verse 2

Well sometimes
You got to open up your wings
And let the weight of the world
Bring you down
Down to the ground
Only got one life
You've only got one heart
You've only got one start
In this crazy world
